

To Whom it May Concern

We have had aides with my husband since October, 2015.

There have been many people who have passed through our home. Sometimes it's worked and sometimes not. However, by chance one lucky day, we had a visit from Steve Stern and Wendy Adlerstein.

Sometimes, if you're very lucky, you encounter people whose standard is "excellence". Not the least of which part is that you know instantly when you are talking with people who actually listen. We all want to be 'heard' and for our part, knowing we are talking with an agency and people of the highest calibre.

This is meant to be an endorsement of/for First Light Home Care of West Suburban Boston. I don't do Facebook or Social Media but am pleased to have this opportunity to support this wonderful group of people who are very much 'there' for us.

Sincerely,

Esta J. Lupo-Stern
